

To access the Impact Test:

1. Go to Impact Test online/testing:
www.impacttestonline.com/testing/
2. The page will ask for a customer code number:
PHS code – **t7cc5neznm**
3. The test will then start. Follow all instructions.
4. When the test is complete, it will ask you to print a confirmation (you do not have to print it, the test is now in our system).
5. If test score is low (based on impact scoring), the student will have to retake the test with the school's Certified Athletic Trainer.
6. A baseline test is good for **2 years**.
*If an athlete sustains a concussion, they must take a new baseline the following year.
7. If there is a suspected head injury and a post test is required, the school's Certified Athletic Trainer will administer the post test.

**Any student who cannot take the baseline at home will be able to take it in school.
